## TEUTON SECOND LINE CRUMBLES BEFORE BRITISH

English Sweep Over Front  
of Four Miles Captur-  
ing Four Towns.

## SLAUGHTER TEUTONS IN COUNTER-ATTACK

Russians in Furious Fight-  
ing Maintain Successes  
in Caucasus.

LONDON, July 14.—(11:25 p. m.)—  
Appropriately on the day of the  
French national fête when every Lon-  
doner wears in his buttonhole a tri-  
color ribbon in honor of his ally, came  
the stirring news of the successful  
British attack on the German second  
line, which opened before dawn and  
carried a number of new positions.

The Association Press correspond-  
ent at the front describes the at-  
tack as surpassing that of July 1 as a  
great spectacle and thrilling display  
of fighting power. Characteristic of  
the fighting throughout the battle of  
the Somme, the Germans appeared to  
be unable to bring up sufficient re-  
serves to make successful counter-  
attacks. A second point which is em-  
phasized by observers on the allied  
side is that in fighting at close quar-  
ters the Germans surrender freely.

Of Heaviest Character.  
Dispatches from General Sir Dou-  
glas Haig and from the press correspon-  
dents show that the fighting again  
has been of the heaviest character. At  
one point the Germans by a furious  
counter-attack succeeded in driving  
the British out of Bazentin-le-Petit.

They immediately were driven out  
again by a British infantry attack and  
the village remained firmly in British  
possession.

The day's fighting resulted in a  
steady increase in British gains, leav-  
ing them in possession of the enemy's  
second position from Bazentin-le-  
Petit to Longueval, both inclusive and  
the whole of Trones wood. A num-  
ber of prisoners were taken, includ-  
ing two colonels and other superior  
officers. According to press corre-  
spondents, fighting was continuing  
hotly late today.

Further fighting was proceeding in  
the afternoon in the woods beyond  
Longueval and on the night of a  
village occupied by the British during  
the day. According to the correspon-  
dents, the British suffered comparatively  
small losses in the day's fight-  
ing.

German Threatened.  
The positions gained today leave the  
Germans seriously threatened at Ro-  
zieres on the main road from Albert.

## DEMOCRATS CAUCUS ON FINAL PROGRAM

Will Consider Further Leg-  
islative Program for Re-  
mainder of Season.

WASHINGTON, July 14.—Demo-  
crats of the senate will caucus  
tomorrow night to consider further  
the legislative program for the re-  
mainder of the season. Some Demo-  
cratic senators are making urgent ap-  
peals for consideration of special  
measures not included in the impera-  
tive program drawn up by party lead-  
ers and Democratic and Republican  
conferences have been unable to agree  
on what measures should be disposed  
of before adjournment.

At a joint conference with the  
Democrats early this week Republi-  
can senators agreed to a program in-  
cluding the appropriation, revenue,  
shipping and corrupt practices bills.  
There was an agreement, however, on  
the child labor, workmen's compen-  
sation and immigration measures and  
their champions now are insisting they  
should not be deferred. Other Demo-  
crats are pressing for action on the  
national education bill, the suffrage  
amendment and numerous other  
measures.

In Demo's Hands.  
Senator Gallinger, the Republican  
leader, told the senate today that  
how soon an adjournment would be  
reached was entirely within the hands  
of the Democrats and that the Re-  
publicans would good-naturedly co-  
operate in completing the program  
and would resort to no obstructive  
tactics. The Republicans, he said, wished  
to go home for the campaign as much  
as did the Democrats. Democratic  
leaders realize that final passage of  
the naval and army appropriation  
bills and the revenue and shipping  
measures alone will require four or  
five weeks at least and that if many  
other measures are to be taken up  
the idea of an adjournment by Sep-  
tember 1 must be abandoned.

The house is expected to complete  
the entire legislative program sug-  
gested by President Wilson by pass-  
age tomorrow of the Rucker corrupt  
practices bill. When Majority Leader  
Kitchin took a report on the situation  
to the White House today the presi-  
dent said he had nothing further to  
suggest. Several of the administra-  
tion measures passed by the house are  
certain not to be reached by the sen-  
ate.

Until the senate is ready to adjourn  
the house will mark time, holding  
perfunctory daily sessions to receive  
conference reports.

## WILSON SHIES AT POLITICAL MOVE

Gives Evasive Answer When Asked  
If He Would Like to Hear  
Progressives.

WASHINGTON, July 14.—In reply  
to a letter from J. C. Parker, a Phila-  
delphia magazine editor, asking if  
he would accept the leadership of  
Progressives of all parties, President  
Wilson today wrote Mr. Parker that  
he had no jealousy of independent  
political organizations, but believed  
the Democratic party represented a  
larger part of the progressive power  
and thought of the country than any  
other party.

The president wrote:  
"In answer to questions contained  
in your letter I will say that for my  
part, I have no jealousy whatever of  
independent organizations intended to  
keep the independent voters of the  
country reminded of their obligations  
and fully informed as to parties and  
of the conditions under which their  
votes are being solicited.

"For myself I sincerely desire, and  
have tried to deserve, the support of  
all progressive, forward-looking men.  
I believe, and I think that recent ex-  
perience has confirmed the belief that  
the Democratic party represents a  
larger part of the progressive power  
and thought of the country than any  
other party and that it can be made  
the instrument and is being made the  
instrument of leadership in the direc-  
tion which all men who love justice  
and progress must take.

"It is for that reason that I am  
proud to be its nominee and to have  
the opportunity to lead it."

## U. S. SAFETY-FIRST TRAIN HERE TODAY

Government Exhibits of  
Life and Property Sav-  
ing Activities Arrive.

OPEN AT 1 O'CLOCK

Special Train Stationed at  
Katy Depot; Public  
Invited.

CARRYING a quarter of a mile of  
exhibits illustrating the various  
life and property saving activities of  
Uncle Sam, the government safety  
first special train will arrive in Tulsa  
at 9:30 o'clock this morning and will  
be open to all Tulsa from 1 o'clock  
this afternoon until 9 o'clock this  
evening.

The exhibition is contained in 13  
cars and will be at the Katy depot. It  
is in charge of 25 government officials  
and is free to the public. It is part of  
the propaganda of education which  
the government is conducting along  
the lines of conservation of life and  
property.

On it are installed displays of de-  
partments of the United States govern-  
ment which have to do with the move-  
ment. Included among the exhibits  
are those of the treasury department,  
war department, department of the  
navy, department of the interior, de-  
partment of agriculture, interstate  
commerce commission and American  
Red Cross society.

Great Crowds on Hand.

In the east the train has been met  
with great crowds at every point and  
it has been such a success that the  
government decided to send the ex-  
hibit west.

In one section of the train, devoted  
to the army, is a complete arrange-  
ment of the uniforms and other  
equipment of the troops. A feature  
of the exhibit which attracts special  
notice is a mask similar to those  
worn by the soldiers of the European  
armies fighting among poisonous  
gases. Officers of the army are in  
charge to explain all the details of  
the military accoutrements, includ-  
ing the medical equipment, surgical  
instruments, etc. Physicians will  
find much of interest to them in this  
section of the exhibit.

Those who have marveled at the  
predictions sent out daily by the  
weather bureau have likely paid lit-  
tle thought as to the system by which  
forecasts are made, containing them-  
selves with checking up the accuracy  
of the bulletins issued. A complete  
system for predicting the weather is  
in operation on the train in charge  
of experts from the department of  
weather at Washington.

Guard Exhibits Interesting.

The United States coast guard ex-  
hibits are of special educational value  
to the public at this time, showing as  
they do the service performed by this  
army of the navy. The equip-  
ment of the guard will be on exhibi-  
tion to show the people the means by  
which 1,507 lives were saved and  
property to the value of \$11,000,000,  
including vessels and cargoes, were  
saved last year.

The exhibit of the health depart-  
ment tells the complete story, graphi-  
cally, of what the government is  
doing to protect the life and health  
of the people of the nation and pro-  
tect them against the ravages of dis-  
ease, epidemics and pestilence. Ac-  
companying the exhibit is a corps of  
surgeons and experts in sanitation  
doing to protect the life and health  
of the people. In addition to the  
exhibits, will offer suggestions with  
a view to improving the condition of  
health in the communities visited.

Accidents in the mines and loss of  
life among the men who toil thou-  
sands of feet beneath the earth, when  
reported in the press attract gen-  
eral interest in accordance with the  
seriousness of such catastrophes.  
Such reports are usually accom-  
panied by a statement that rescues  
from the bureau of mines have been

## COLLIERHECTOR SINKS WITH 42 MEN ON BOARD

Sinks Off Charleston After  
Being Disabled in  
Hurricane.

## CARRIED 60 MARINES TO SANTO DOMINGO

Alamo Standing by Sinking  
Ship but No Report Has  
Been Received.

CHARLESTON, S. C., July 14.—  
The large naval collier Hector,  
carrying sixty marines in addition to  
her crew of seventy men and 12 of-  
ficers, sank off Charleston late today,  
according to a report made here to-  
night by Capt. F. R. Hunt of the tug  
Vigilant, which tried to go to the  
Hector's assistance. The steamer Alamo  
had been standing by the collier  
today, having responded to her calls  
when the collier was disabled some  
sixty miles off here in last night's hur-  
ricane.

Captain Hunt was unable to get  
within more than three miles of the  
Hector and static conditions were  
such that no wireless report could be  
obtained from the Alamo. The sea  
still was running high and it was not  
known here whether the Alamo had  
been able to take off the 142 per-  
sons aboard the Hector.

Destroyer Crippled.  
From the steamer Arapahoe, which  
arrived here today, came the report  
that a torpedo boat destroyer was be-  
ing towed in by a tug. It was not  
known what damage had been done to  
the destroyer. The Arapahoe de-  
scribed the destroyer as "No. 25."

The Hector left Port Royal for  
Santo Domingo, carrying the marines  
who were recruits for the United  
States forces in Santo Domingo and  
Cuba. She attempted to put into port  
here when the storm disabled her,  
but according to Captain Hunt, was  
unable to get further than within  
about nine and a half miles from the  
Charleston lightship before she sank.  
Captain Hunt said part of the col-  
lier's superstructure remained above  
water.

The Hector was built at Sparrow's  
Point, Md., in 1903, and was one of  
the first of the new type of naval  
fuel ships to be completed. She car-  
ried a crew of 73 men.

The vessel was of 11,200 tons dis-  
placement, 333.9 feet long, 52.5 feet  
beam and had a draft of 24.5 feet.  
Her speed was 12 knots an hour and  
her carrying capacity 8,125 tons of  
coal.

WASHINGTON, July 14.—There  
was a total of 142 persons aboard  
the naval collier Hector, the navy de-  
partment announced tonight. The last  
word the department had from the  
collier came at 4 o'clock this after-  
noon and the message said the vessel  
then was aground and was lowering  
her main boats.

The Hector's crew numbered seven-  
ty men and 12 officers, and there  
also were aboard sixty marines, go-  
ing from Port Royal, S. C., for Santo  
Domingo.

## METEORITE FALLS NEAR HOT SPRINGS

Searching Parties as Yet Are Unable  
to Find Trace of Large  
Ball of Fire.

HOT SPRINGS, Ark., July 14.—A  
meteorite, hugging the ground close-  
ly in its flight last night across a  
portion of this country, is believed to  
have struck the ground in the north-  
east portion, about 15 miles from Hot  
Springs. Searching parties today  
failed to locate the fallen meteorite.  
Individually, the large ball of fire  
passed over this city and out to the  
northeast, but where it struck the  
ground in this vicinity could not be  
established tonight.

Hurty's Body Found.  
CHEROKEE, Mich., July 14.—The  
body of James G. Hurty, New York  
banker, missing since early in  
June, was washed ashore at Albany  
island, near here, today. Hurty,  
with Charles Marcelle, also connect-  
ed with a New York bank, several  
months ago began a ten thousand-  
mile canoe trip. No trace has ever  
been found of Marcelle.

## Ice and Milk Fund

Humane Agent Welch yesterday distributed twenty ice-cou-  
pons among as many poor families of Tulsa. He is being  
brought comfort to hundreds. "It is the best and most timely  
charitable work the people of Tulsa, noted for their generosity, ever  
accomplished," said Mr. Welch yesterday. He is placing the con-  
tributions in a separate fund and the money will be used for  
other purpose than furnishing milk and ice to babies and poor fam-  
lies. "We will need three or four hundred dollars more to tide us  
through the heated term," said the humane agent, "and I feel sure  
that we will get it, judging from the hearty response to the appeal  
in the past two days."

All contributions should be sent to the milk and ice fund, in  
care of The Daily World.

## SOL SENDS MERCURY TO 102 MARK AGAIN

SEASON'S HIGHEST M-  
TOUCHED WHILE TULSA  
AND SEES FOUNTAINS.

Streets During Torrid Part of Day  
Nearly Deserted, Many Leav-  
ing the City.

With no sign of rain Tulsa sweltered  
through another day with a blistering  
sun looking down from a clear sky,  
but the record established Thursday  
was not broken and held steady  
throughout the afternoon at 102 de-  
grees. It was said in the downtown  
section where the high buildings shut  
off the breezes and the pavements  
hold the heat that some thermometers  
registered as high as 110 degrees  
shortly after the noon hour.

It is a noticeable fact that the  
streets are not nearly so crowded dur-  
ing the past week as previously and  
the few women shoppers who find it  
necessary to venture out in the after-  
noon invariably go armed with para-  
sols.

Not a few Tulsans are leaving the  
city to get away during the height of  
the heat spell to resorts and the cool  
of the lakes.

The extended heat wave is showing  
plainly on the corn, cotton and cu-  
cumbers. It is said that rain must  
fall within the next few days if any of  
these are to be saved.

The forecast is for continued high  
temperatures but no mention of rain  
is to be found.

Rain fell yesterday at Kansas City  
and in southern Kansas, breaking a  
heat wave that had held the city  
since July 4.

## GEN. BLISS GIVES TROOPS ONCE OVER

Accompanied by Funston,  
Assistant Chief to Pre-  
pare Detailed Report.

## WILL REVIEW UNITS

Disposition of Men Who  
Disqualify in Physician  
Examinations Puzzles.

SAN ANTONIO, July 14.—Gen.  
Tasker H. Bliss looked over the  
big camp of national guardsmen here  
today. Accompanied by General  
Funston, the assistant chief of staff,  
who has been sent to the border to  
prepare a detailed report of the fed-  
eralized state troops for the secretary  
of war, visited the headquarters of  
the Illinois forces. The formal in-  
spection of troops was held and it is  
improbable that General Bliss will ask  
for the men to be paraded at any  
point on the border. The information  
he wants will be contained in the  
answers to questions regarding the  
health of the men, the sanitary con-  
ditions under which they are living and  
the general fitness of the individuals  
and of the organizations for active  
field service.

General Bliss expects to leave Mon-  
day for Brownsville and there begin  
an investigation of militia camps that  
will lead him westward along the  
border as far as Arizona. It may  
be several weeks before his work is  
completed.

Many Want Release.  
The number of men asking release  
from service on the plea that they  
have dependent relatives has not been  
made public, but it was said today that  
there were coming in hundreds, but  
not in thousands.

From the state organizations many  
are yet being dropped because of  
physical defects and in some cases  
because of mental defects. In a  
large measure, however, the work  
of the government was not on a firm  
basis for the reason that among some  
of the Mexicans now living abroad  
there are those who would return to  
Mexico to conduct agitations and dis-  
turb labor conditions.

"As for myself personally, I do not  
care," General Carranza declared,  
"but I do care, of course, for the gov-  
ernment and the country. The work  
of bringing about the political recon-  
struction of Mexico is most difficult  
and must be carried forward under  
peaceful conditions. Let these Mexi-  
cans who are disturbers stay where  
they are until such time as the coun-  
try has a constitution and a govern-  
ment. Then they can return and work."

## TRY TO BEAT AUTO TAXES

Attempts by Persons Living Near the  
State Border Discovers by Officials.

OKLAHOMA CITY, July 14.—At-  
tempts to evade paying state automo-  
bile tax by parties living near the  
state border are said to have been  
discovered by the state highway de-  
partment and representatives will be  
sent immediately to these portions of  
the state for the purpose of collect-  
ing the state tax. It is said that many  
automobile owners along the border  
go into the adjoining state, pay the  
license required there, then come  
back and operate their machines in  
Oklahoma where they live. This  
practice will be discouraged, for a  
representative of the state depart-  
ment will be given authority to bring  
suit against the auto owner and in  
addition a fine may be assessed.

## Melnyre Reappointed.

WASHINGTON, July 14.—President  
Wilson today nominated Brig.-Gen.  
Frank Melnyre to succeed himself  
as chief of the war department's bu-  
reau of insular affairs.

## AMERICA STEPS NEARER PEACE WITH MEXICANS

Informal Negotiations Are  
Taken Up by Polk and  
Mexican Envoy.

## MATTERS PASS INTO A DEFINITE STAGE

First Chief Carranza Says  
Status of Relations Is  
Satisfactory.

WASHINGTON, July 14.—In-  
formal negotiations for the set-  
tlement of issues between the United  
States and General Carranza are un-  
derstood to have advanced a long  
step today when Acting Secretary Polk  
and Eliseo Arredondo, Mexican am-  
bassador designate, held their third  
conference since General Carranza's  
proposal for a diplomatic adjustment  
was received and accepted.

Although both Mr. Polk and the  
ambassador declined to say what mat-  
ters were under discussion, there were  
indications that the conversations had  
passed into the definite stage where  
specific questions were being formu-  
lated, probably for submission to a  
joint international commission.

Wilson Discusses Matter.  
President Wilson discussed the  
question with some of his advisers to-  
day and the fact that no interruption  
of the Polk-Arredondo conference re-  
sulted was taken as an indication that  
the president was satisfied with the  
trend of negotiations.

Both Mr. Polk and the ambassador  
are confident that an agreement will  
be reached in the near future. It is  
not known whether the powers of the  
negotiators finally decided upon  
will include authority to sign the time  
and condition upon which American  
troops will be withdrawn.

Mr. Arredondo issued a statement  
tonight warning against sensational  
stories published throughout the  
country by those who desire interven-  
tion. As an example of such stories  
he cited the report of the defection of  
Gen. Jacinto Trevino "whose loyalty  
has never been doubted."

MEXICO CITY, July 14.—General  
Carranza in an interview today said  
that the status of the negotiations  
was most satisfactory and that the  
result of the good will shown to  
each other by Mexico and the  
United States.

"Thanks to this feeling of good  
will," he said, "the chief obstacle, 'two  
wills,' will be able to avoid war. War  
is something I do not desire, but if there  
were no other remedy for the situa-  
tion I would enter upon it."

General Carranza, however, re-  
fused to discuss the situation as it  
relates to the possible action of Presi-  
dent Wilson or of the Latin-American  
nations which offered to mediate in  
the trouble between the United States  
and Mexico.

Within a short time, the first chief  
said, there would be incorporated in  
the constitution of Mexico all the re-  
forms which now find a place in the  
program of the constitutionists. In a  
large measure, he declared, some  
of these reforms already are in opera-  
tion and there remains their incor-  
poration into the fundamental laws  
of the country.

Election Soon.  
As to the holding of a presidential  
election, General Carranza said it  
would take place as soon as the work  
of reconstructing the constitution  
had been completed and when the  
country was completely at peace.

The facts governing the first  
chief asserted, will pass a law of am-  
nesty so that all Mexican who have  
left the country can return if they  
desire. Such a law, however, he said,  
would not be promulgated as long as  
the government was not on a firm  
basis for the reason that among some  
of the Mexicans now living abroad  
there are those who would return to  
Mexico to conduct agitations and dis-  
turb labor conditions.

"As for myself personally, I do not  
care," General Carranza declared,  
"but I do care, of course, for the gov-  
ernment and the country. The work  
of bringing about the political recon-  
struction of Mexico is most difficult  
and must be carried forward under  
peaceful conditions. Let these Mexi-  
cans who are disturbers stay where  
they are until such time as the coun-  
try has a constitution and a govern-  
ment. Then they can return and work."

## POOR BOYS' CAMP FUND.

Donations for this fund are  
not coming in very rapidly. Un-  
less there is a better response  
within the next few days the  
project will have to be aban-  
doned. Boy scouts of several  
Oklahoma cities and towns are  
now at the camp. Their outing  
will be ended in another ten days.  
Unless it is known definitely by  
that time that another delegation  
of youths is coming the camp  
will be closed for the season and  
the Y. M. C. A. workers, who are  
in charge there, will depart for  
their homes. The newboys and  
other youths who must work for  
a living are entitled to this out-  
ing and the people of Tulsa  
should furnished it to them. The  
cost is only \$7.50 for each boy.  
Including railroad fare and all  
expenses. How many boys  
will you send to Camp Table-  
quah for ten days? Just think  
what a treat it will be for these  
youngsters and what an effect it  
will have on their lives. Please  
send your contribution, no mat-  
ter how small, to C. E. Buch-  
ner, secretary of the Y. M. C. A.,  
today.

## BOYS AND GIRLS CLUBS TO PICNIC

Annual Get-Together Affair to Be  
Staged at Sand Springs  
July 21.

Nearly three hundred members of  
the Tulsa county girls and boys clubs  
will gather at Sand Springs park Fri-  
day, July 21, where the annual picnic  
and get-together meeting will be held.  
Parents will accompany the children  
and there will be something going on  
every minute. These clubs are or-  
ganized by Dr. C. E. Earnheart, county  
farm demonstrator, and are known as  
demonstrating clubs.

There will be lectures and demon-  
strations for the adults while the boys  
and girls will enjoy the privileges of  
the park without charge. There will  
be an abundance of lemonade and ice  
cream for all throughout the day.

Greater interest than ever has been  
manifested in the clubs and their work  
during the past year and at present  
there are 251 members doing active  
work. To the poultry department,  
which was added this year, 117 set-  
tings of pure-bred eggs were dis-  
tributed to members through the of-  
fice of the demonstrator.

Many cash prizes have been won by  
the boys and girls. One girl won a  
total of \$17.50 in prizes for bread  
which she entered at the county fair  
last year, competing with women in  
two instances.

With the ideal picnic weather and  
the rush work season over it is ex-  
pected that every boy and girl will  
take advantage of the holiday and  
enjoy the day. Farmers and everyone  
interested in agriculture are invited  
to attend.

## OFFICIALS WILL GET OUT HEALTH PRIMER

10,000 Pamphlets Dealing  
With Health Problems  
to Be Distributed.

## HAWLEY IS PROMOTER

Announcement Was Made  
at Friday Meeting of the  
City Commissioners.

AT THE meeting of the city com-  
missioners yesterday morning  
Dr. DuZell Hawley, city superintendent  
of health, announced that he was  
having prepared for distribution in  
this city ten thousand pamphlets, deal-  
ing with precautions which are neces-  
sary to protect this city from dis-  
eases and which Doctor Hawley given  
the name of a "Health Primer." The  
book will be distributed free of cost  
from the office of the superintendent  
of health just as soon as it is off the  
press.

It is Doctor Hawley's plan to have  
the literature follow closely along the  
lines of the pamphlet distributed by  
the Kansas City department of  
health and it will contain much val-  
uable information which is expected to  
stimulate closer co-operation between  
the citizens of Tulsa and the city's  
department of health.

The book will contain tables show-  
ing the percentage of contamination  
of milk sources from flies, the num-  
ber of epidemics in the larger cities  
as a result of neglected trash cans,  
both in typhoid fever, scarlet fever  
and tuberculosis.

Valuable Work.  
"This book will prove valuable to  
the people of Tulsa," said Doctor  
Hawley, "as it will serve to enlighten  
them on the great problems which  
confront us in keeping the city in a  
more sanitary condition and in elimi-  
nating all breeding places for disease  
germs."

The book will contain reference to  
the danger which lurks in unclean  
milk, the practice of "drugging"  
babies, proper methods of fumigation,  
and the danger of diseases, such as  
school hygiene and modern dispen-  
sation, soda water fountains and gen-  
eral civic sanitation.

The pamphlet will contain many  
clear illustrations in connection with  
the reading matter, which is in itself  
written in an untechnical manner,  
easily understood by the layman.

It is probable that the literature  
will be ready for distribution within  
the next three weeks or a month.

## MORE APPLICATIONS FOR MILK AND ICE

Humane Society Gives Out Ten Ice  
Books and Orders for  
Milk.

The generous response of Tulsa to  
the plea for funds to furnish ice and  
milk to poor and helpless babies has  
made it possible for the Humane  
society to alleviate suffering and dire  
want for these necessities in scores  
of cases.

Every day brings additional ap-  
peals to the office of the society and  
each case is given immediate atten-  
tion. Ten ice books were distributed  
yesterday and as many orders given  
for daily supplies of milk where it  
is badly needed.

As the fund grows each day the  
number of applications for the com-  
modities climbs again.

Many appeals for milk come from  
isolated and distant parts of the city.  
Dairy wagons do not travel near  
some of the places and arrangements  
are being made to have the milk  
applied from neighboring grocery  
stores.

## INSANITY GIVEN AS REASON FOR SHOOTING HERE

W. H. Traylor Shoots F. J.  
Vollmer and Turns Gun  
on Himself.

## BOTH ARE SERIOUSLY HURT IN HOSPITAL

Assailant and Victim Had  
Been in Business To-  
gether for Years.

TEMPORARY insanity, superin-  
duced either by the intense heat  
or
